

## LETTER OF CONFIRMATION

To whom it may concern:

Thank you for your always kind support for Tayra.

As the AC market is developing rapidly worldwide, we are increasingly seeing the need for eco-friendly low carbon foot print air processing HVAC/R products. We at Tayra see the great opportunity of combining the refrigerant oil-fouling cleaning procedure and Air-conditioning and Refrigeration products in the world market.

Pradditive, an innovative company based in Spain & headed by Juan Gil Gutiérrez, one of our Spain technical consultants and now CEO for Pradditive, has been our distributor of the high efficiency Tayra EQUAM AHU and heat pump products which combine integrated DX refrigeration circuits. We understand and appreciate the technology and the efficiencies delivered when partnered with our fix & variable refrigerant flow systems.

Once again, thank you for fully supporting our high efficiency products, and together we can establish prosperous partnerships and win future energy efficient projects between our two companies with this joint venture co-operation.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Paul Gerard O'Donohoe".

Paul Gerard O'Donohoe,

CEO , Tayra Soluciones de Agua y Aire, SL
